

From 15 year old rebel punk with an attitude in 1980 to a dad to be at the end of the decade, *Away from the numbers* continues the story of the 70s kid on a red chopper bike throughout the 1980s. A decade that sees the lad's hopes and dreams tasted and then lost: from performing in *The Way to crowds of Mods in Scarborough*, emulating his hero Paul Weller, to creating a *Do it Yourself* magazine and Del Boy styled market stall ventures, this is a journey of struggle, friendship, self-belief and determination! Laced with humour, straight-talking self-honesty and reawakening the naivety, mistakes and escapades of being young... never losing sight of his pit village roots, here is the 1980s told from another side of the track... a place where the world of mortgages, routine and responsibilities don't yet exist. Ducking and diving through the years; a passionate love of music his obsession and a yearning to be someone in a time of yuppies, mullets, greed and Thatcherism... *Away from the numbers* promises to reach and explore the parts many other books fail to reach!
