

I have been using Joomla as a blogging platform with great success for both my clients and myself. After having reviewed and tested countless setups and extensions this book is my way of sharing what I have learnt over the years. This knowledge can be used by anyone using Joomla, not just those who want to build a blog. Joomla is great for any type of web site, and its great for blogging. I have shown in practice that it is indeed possible to build a successful blog with Joomla. By adding a selection of extensions, you can extend the core package to solve anything you throw at it. You already know Joomla and use it for other projects. Thats just one of the reasons why you should use Joomla for blogging. This book will answer all the questions youll have when Blogging with Joomla! The content in this e-book is based on real life use of Joomla! for blogging since 2009. It can be used by anyone who wants to learn how to: â€¢ Understand and configure commonly used Joomla extensions like K2 and EasyBlog â€¢ Optimize the blog for search engine visibility â€¢ Create and organize content â€¢ Track and analyze the web site traffic â€¢ Integrate advertising, social functions and video â€¢ Optimizing a web site for speed and much more Note that the book was written when Joomla 2.5 was the latest version. However, most of the information is non-version specific, and thus its valid for whatever version of Joomla you might use. ==What people are saying== Kristoffer has developed a very thorough guide for building a blog with Joomla in his new book. Offering a well rounded look at the process of building a Joomla powered blog site, including suggestions on everything from choosing the right template and other extensions, to content strategies, he has done a great job of presenting a ton of information in a structured and easy to follow guide. Theres so much information in this book it would be good resource for someone looking to build ANY type of Joomla site. Its a great investment for anyone looking for guidance with setting up their Joomla powered blog site, written by one of Joomlas best bloggers! â€“ TJ Baker, joomlashack.com Kristoffer Sandven has finally written the book that many in the web development community has been waiting for. This book is essential for anyone wanting to create a robust publishing infrastructure with Joomla and the author pulls out all the stops as he details every aspect of creating and using Joomla for your blog. But this is not just a technical manual for blogging. The author also addresses important aspects for blogging like SEO, charging for your blog, adding features, etc. In short, if you need to set up a blog or similar web site to publish content, this book will give you everything you need to get it done, keep it going and be successful! â€” Victor Drover, Anything Digital Kris has been one of the pioneers in blogging with Joomla. Joomla blogger has been one of the references for all of us blogging with this CMS for years. The Joomla Community acknowledged that by nominating him in the best blog category on JAB 10 and awarding him with a JOSCAR during JAB 11. Apart from his long experience as a blogger, he has a deep knowledge of Joomla and SEO, and with such ingredients he could only write an incredible book. Very professional and comprehensive. As I said during one of my presentations in JDay Spain 2011: Kris book will become the Bible of blogging with Joomla. â€” Isidro Baquero, Joomla! Leadership (CLT) / Freelance site builder, gnumla.com Kristoffer Sandven is at the leading edge when it comes to using Joomla for blogging. The detail covered in his Blogging with Joomla book is simply mind-boggling, which makes it a must for new or even seasoned Joomla users. â€” Anthony Olsen, Joomla Bamboo
