

It is rare and splendid event when an author is elevated from the underground into the international literary establishment. In the case of Englands best-known and best-loved modern satirist, that event has been long overdue. Terry Pratchetts profoundly irreverent Discworld novels satirize and celebrate every aspect of life, modern and ancient, sacred and profane. Consistent number-one bestsellers in England, they have garnered him a secure position in the pantheon of humor along with Mark Twain, Douglas Adams, Matt Groening, and Jonathan Swift. Even so distinguished an author as A. S. Byatt has sung his praises, calling Pratchetts intricate and delightful fictional Discworld more complicated and satisfying than Oz. His latest satiric triumph, *Carpe Jugulum*, involves an exclusive royal snafu that leads to comic mayhem. In a fit of enlightenment democracy and ebullient goodwill, King Verence invites Uberwalds undead, the Magpyrs, into Lancre to celebrate the birth of his daughter. But once ensconced within the castle, these wine-drinking, garlic-eating, sun-loving modern vampires have no intention of leaving. Ever. Only an uneasy alliance between a nervous young priest and the argumentative local witches can save the country from being taken over by people with a cultivated bloodlust and bad taste in silk waistcoats. For them, theres only one way to fight. Go for the throat, or as the vampyres themselves say...*Carpe Jugulum*
