

Depuis 2007, le monde connaît une des plus graves crises économiques de son histoire. Crise des subprimes, bancaire, des dettes souveraines, le qualificatif change mais le mot reste omniprésent dans l'actualité quotidienne. Avant cela, le monde avait déjà traversé de nombreuses crises (pétrolières en 1973 et 1979, krachs boursiers de 1987 et 2001, bulle internet). Est-il toujours pertinent de parler de crise lorsque celle-ci semble avoir été quasi-permanente depuis quarante ans ? Ne sont-elles pas les témoins d'une « grande transformation » du monde, d'un changement de modèle de développement ? Pour répondre à ces questions, « Place au débat » vous propose l'analyse d'un auteur spécialiste.
