

It was a look of appraisal; I don't think there's another way to put it. Charles Smith appraised me as a possible anal-submissive, and I felt searched out and known as I never, ever had before. This companion, drawn from Emily's blog, tells the story of her early relationship with her husband Charles, and of the way she came to write the first version of the Explorations series. Please note that most of the content of this book has appeared on the blog, though it is no longer available there. This companion to EXPLORATIONS contains fiction elaborating the following sorts of fantasy that you may wish to avoid: Mf, spanking, anal. It's intended for over-18 audiences who, like me, are interested in exploring the lines between pleasure and pain, dominance and submission, and fantasy and reality. All characters depicted are consenting adults. The Explorations series is a unique take on BDSM above all because of the strong individual voice of Emily Tilton herself, manifestly shaping the fantasy-elaborations of the series. Because Emily is interested in helping herself and others understand how BDSM can be lived within a mostly vanilla existence, the way most of us have to live it, Explorations has a unique element that Emily hopes will set it apart and make it useful: Emily has created a fantasy-version of herself (keeping to the tropes of the genre she knows so well, fantasy-Emily is an eighteen-year-old virginal bride with a self-abuse problem), whose fantasies and realities are the central subject of the stories of Explorations--but the real Emily also keeps her authorial, real voice in the margins, explaining and analyzing, and revealing from time to time the much more mundane, real version of the things Emily has transformed in the story of her fantasy-self. This doubling of the I in the first-person narrative of Explorations makes the series worth exploring all on its own. Come for the hot D/s, spanking, anal action. Stay for the exploration.
