

In the lawless regions of the galaxy, Confederation rule has dwindled. Now the gangsters and smugglers are doing their best to make a quick buck, and maybe just survive. Knox, a disgraced Confederation officer, is hired by a mysterious woman to escort cargo across dangerous territory. Its a payday better than anything hes ever seen...but theres a catch. Hell be in the company of two others, and they might be more deadly than anything that waits for them out in space. Based on the next chapter of Sci FIs most beloved saga, Fools Gambit combines cyberpunk and space opera, along with the nastiness of galactic slave trade.
