

Love is a science: at least as far as the government is concerned, when they implement a matching program that pairs and binds applicants to the perfect partner from a simple questionnaire. However, the government can't predict the outcome when the system matches political daughter Rainy Clarke to one of the most eligible bachelors in the country. Rainy finds herself caught up in a high-profile engagement turned government publicity stunt. As she navigates her new life with the help of sarcasm and a strong will, Rainy begins to realize that love and marriage are not always the same things, especially in the eyes of the government. The fight to reverse the strict marriage matchmaking system, that seems to be a thorn in the lives of not only her but those around her, falls on Rainy's shoulders. Has the government made its final match? Here, Have a Husband advanced as a quarter-finalist in the 2011 Amazon Breakthrough Novel Award Contest.
