

An interactive, comprehensive presentation of professional nursing concepts as preparation for upper level nursing courses. It contains both content about nursing and self-development activities designed to enhance socialization as a professional. A wide range of topics are reviewed including the impact of historical and social events on modern nursing, various definitions and philosophies of nursing, and the relationships among nursing theory, research, and practice. This book will enable students from diverse backgrounds to view nursing as a profession, to develop a common language, to understand what is meant by professional, and to develop a professional perspective on nursing practice.
