

Based on the classic Radar Range-Performance Analysis from 1980, this practical volume extends that work to ensure applicability of radar equations to the design and analysis of modern radars. This unique book helps you identify what information on the radar and its environment is needed to predict detection range. Moreover, it provides equations and data to improve the accuracy of range calculations. You find detailed information on propagation effects, methods of range calculation in environments that include clutter, jamming and thermal noise, as well as loss factors that reduce radar performance. This invaluable book is supported with nearly 200 illustrations and over 430 equations. Contents: Background. Search Radar Equation. Radar Equations for Clutter and Jamming. Detectability Factor. Beamshape Loss. Noise Temperature. Atmospheric Effects. Pattern-Propagation Factor. Clutter and Jamming. Loss Factors in the Radar Equation.

A pdf about is Radar Equations for Modern Radar (Artech House Radar). dont for sure, I dont take any money to downloading this ebook. any pdf downloads on caskeylees.com are eligible to anyone who like. I know some websites are post a book also, but in caskeylees.com, visitor will be get a full copy of Radar Equations for Modern Radar (Artech House Radar) file. Click download or read online, and Radar Equations for Modern Radar (Artech House Radar) can you read on your laptop.
