

This Teen Business book cultivates teen leadership and teen entrepreneurship in a relaxed unthreatening manner. The topic of business may already be covered in your child's current curriculum but is most likely lacking the necessary introduction to topics crucial to their success such as: How to write a business plan, How to present an idea to investors, How to write a press release, Crisis management for beginners, How to take a company public, How to create a strong corporate structure, Key leadership qualities needed to succeed and much more. You'll notice that the contents of this book will not only give your teen commanding knowledge and comprehension of powerful business concepts but there are endless real life social applications as well. The leadership strategies presented here will help your teen stand out when running for student council, playing sports or applying to universities. The crisis management strategies will take the stress out of the all too common peer gossip and the presentation training will help your teen with high school debate team, communicating with fellow students and instructors or just bringing clarity to confusing situations among friends in a social environment. This book derived out of the lack of real and actionable teen leadership, teen business and teen entrepreneurship guides both in public and homeschooling curriculum. This text is a must have among your Homeschool books library and in the backpack of any public or private school teen with a keen interest in honing their leadership skills.
