

The Wreck of the Medusa is a spellbinding account of the most famous shipwreck before the Titanic, a tragedy that riled a nation and inspired Theodore Gericault's magnificent painting The Raft of the Medusa. In June 1816, the flagship of a French expedition to repossess a colony in Senegal from the British set sail. She never arrived at her destination; her incompetent captain Hugo de Chaumareys, ignoring telltale signs of shallow waters, plowed the ship into a famously treacherous sandbar. A privileged few claimed the lifeboats while 146 men and one woman were herded aboard a makeshift raft and set adrift. Without a compass or many provisions, hit by a vicious storm the first night, and exposed to sweltering heat during the following days, the group set upon each other: mayhem, mutiny, and murder ensued. When rescue arrived thirteen days later only fifteen were alive. Meanwhile, those in the boats who made it to shore undertook a dangerous two-hundred-mile slog through the desert. Among the handful of survivors from the raft were two men whose written account of the fiasco became a bestseller that rocked France's political foundations and provided graphic fodder for Gericault's world-famous painting.

A Kiss Remembered, The One to One Fieldbook: The Complete Toolkit for Implementing a 1 to 1 Marketing Program, A RUMOURED ENGAGEMENT (Harlequin comics), Managing Time and Space in the Modern Warehouse: With Ready-to-Use Forms, Checklists, & Documentation, The Articles of Confederation (We the People: Revolution and the New Nation), 28 Days to a More Magnetic Life,
