

At its core, the freedom-to-marry movement is about the same thing every civil rights struggle has been about: taking seriously our countrys promise to be a nation its citizens can make better, its promise to be a place where people dont have to give up their differences or hide them in order to be treated equally. Why Marriage Matters offers a compelling, intelligently reasoned discussion of a question at the forefront of our national consciousness. It is the work of one of the most influential attorneys in America, who has dedicated his life to the protection of individuals rights and our Constitutions commitment to equal justice under the law. Above all, it is a clear, straightforward book that brings into sharp focus the very human significance of the right to marry in America -- not just for some couples, but for all. Why is the word marriage so important? Will marriage for same-sex couples hurt the sanctity of the institution? How can people of different faiths reconcile their beliefs with the idea of marriage for same-sex couples? How will allowing gay couples to marry affect children? In this quietly powerful volume, the most authoritative and fairly articulated book on the subject, Wolfson demonstrates why the right to marry is important -- indeed necessary -- for all couples and for Americas promise of equality.

Les Regrets (French Edition), Astounding Days: A Science Fictional Autobiography (A Bantam spectra book), Annuals and Bedding Plants, hukuennsitaihitogayomuzibunwokaerusikouhou (Japanese Edition), Uber die Dichtkunst (German Edition),
